

# Charging Your Tablet

1

Plug the USB cable into the USB charging base.

2

Plug the USB cable into the device's USB port.

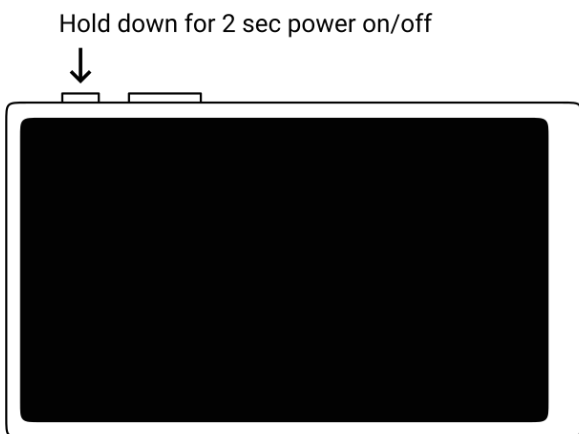

3 Plug the USB charging base into an electric socket.

## Tablet charging tips

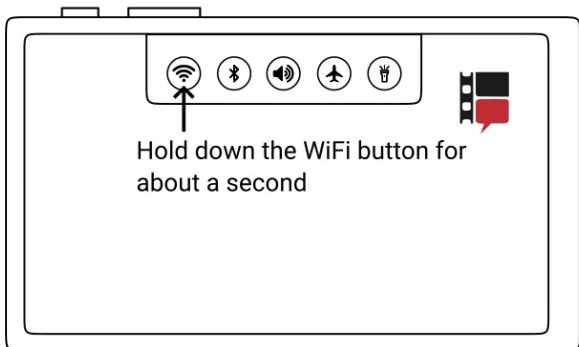

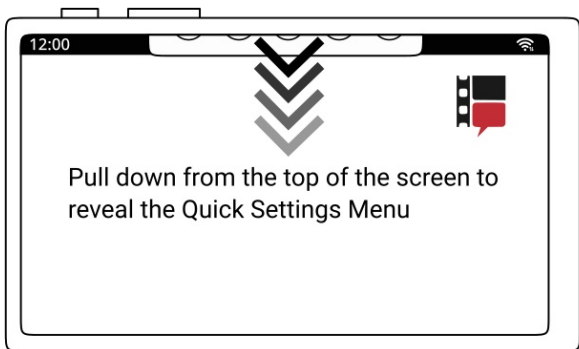

- The battery icon will appear empty when the battery is low.
- The battery icon will contain a lightning bolt when it is charging.
- If the tablet is turned off and the battery is fully drained, the tablet may need to charge for several minutes before it's charged enough to turn on.
- If the charging power source is unstable, the tablet's touch screen may stop working. Unplug the tablet from the power source.
- The tablet will heat up while charging. If the device starts to overheat a warning will appear and it may shut itself off. You'll be able to turn it back on once its cooled down.
- Keep the tablet plugged in and charging for ease of use.

# Connect Your Tablet to WiFi

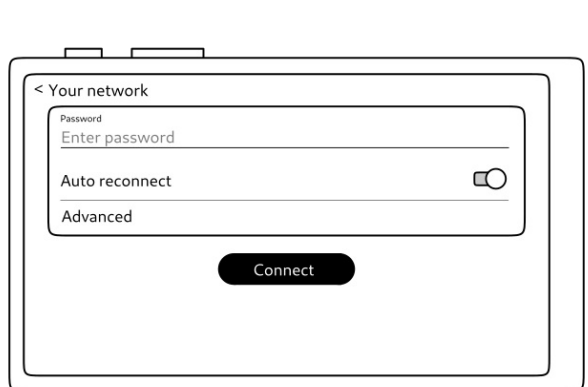

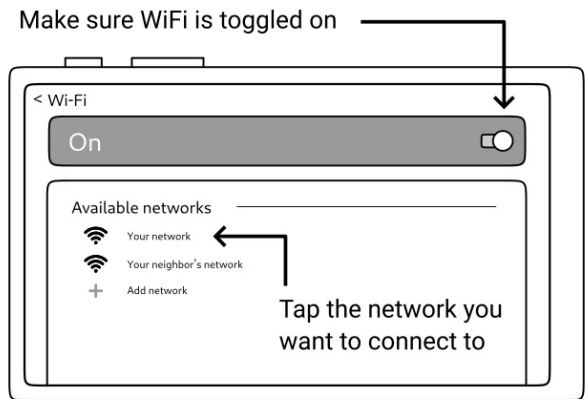

Wait about a minute for the tablet to turn on

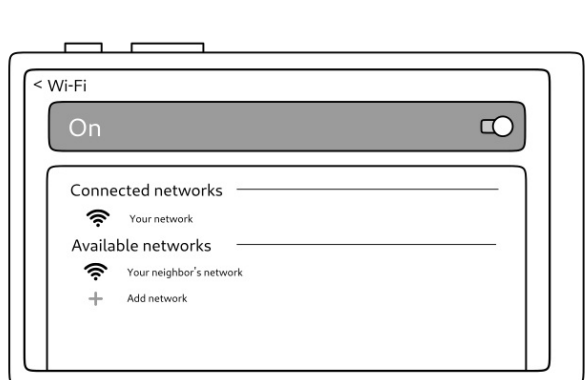

1

2

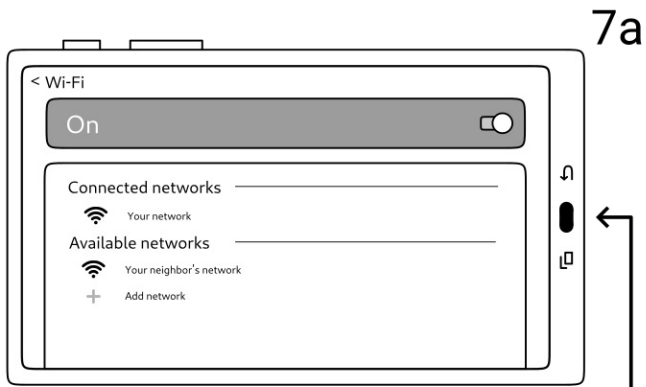

3

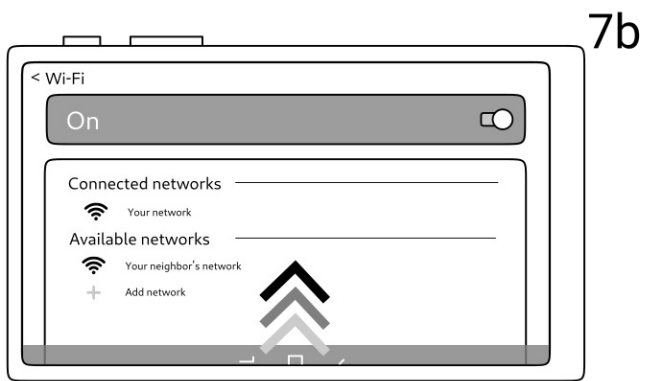

Enter the network password and tap the Connect Button

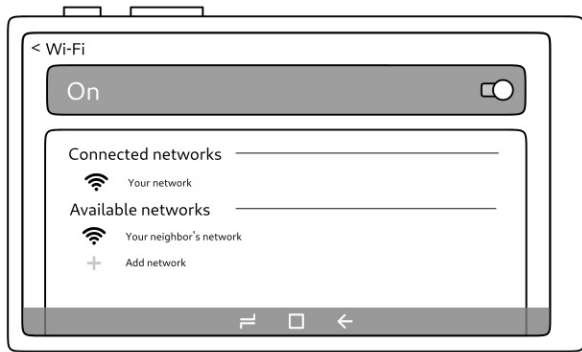

The connected network will be in the Current Network section

If your tablet has a physical Home Button, press it to return to the Home Screen

If your tablet does not have a physical Home Button, swipe up from the bottom of the screen to reveal the Navigation Bar
